EDUCATION

Mumbai University – A P Shah Institute of Technology

Bachelor of Engineering in Computer Science and Engineering(AI & ML) | Cgpa: 9.45

2023-2027

Thane

Kendriya Vidyalaya, Air Force Station, Thane

Senior Secondary (Grade 12): 77%

High School (Grade 10): 97.8%

TECHNICAL SKILLS

Languages | Python, JavaScript, Java, C/C++, SQL

Frameworks | React, Django, Flask, FastAPI, Angular, Express.js, Hugging Face, LLM APIs

Developer Tools | Git, Docker, GitHub, CI/CD, Visual Studio Code, PyCharm, Google Cloud Platform, BigQuery

Libraries | PyTorch, Pandas, NumPy, Scikit-learn, OpenCV, Matplotlib, TensorFlow, Google ADK

PROJECTS

GazeType AI | Python, OpenCV, MediaPipe, Node.js

Aug 2025 – Nov 2025

- Developed a hands-free typing system using real-time gaze tracking for accessibility-focused human-computer interaction
- Integrated eye movement detection, voice input, and text-to-speech, enabling users with limited mobility to communicate effectively
- Optimized computer vision pipelines to ensure low-latency real-time performance

ML Hyperparameter Tuner | Python, PyTorch, FastAPI, Docker, Reinforcement Learning

April 2026

- Built an RL-based hyperparameter optimization system using a custom OpenEnv environment where PPO agents autonomously explore and tune ML model configurations.
- Deployed a production-ready FastAPI backend with real-time monitoring of agent learning progress and model performance metrics, hosted on Hugging Face Spaces.

CareOrchestra | Python, Google ADK, BigQuery, Gmail API, Multi-Agent Systems

March – April 2026

- Developed a multi-agent AI system for chronic care coordination using Google's Agent Development Kit, orchestrating 7 specialized agents to monitor patient vitals, track medication adherence, and perform real-time risk stratification.
- Integrated BigQuery for scalable patient data storage and Gmail API for automated critical alert escalation to healthcare providers.

EXPERIENCE

AIML Club Member | APSIT, Thane

Aug 2025 – Present

- Led club operations by organizing inter-college outreach programs, conducting ML sessions and project bootcamps, mentoring 60+ students from concept to model implementation, and managing club publicity through Instagram content and reel editing.

ACHIEVEMENTS

- Ranked in the top 10% out of 3,500+ participants at Mumbai Hacks, with each team member awarded an ₹3,000 Amazon Pay gift card.
- Selected for top 800 teams from 32000+ participants at Meta x Scalar Hackathon in round 1
